Vivek Pandit

8390442495 | vivekpandit8390@gmail.com | linkedin.com/in/vivekpandit8390
Chhatrapati Sambhajinagar, Maharashtra, India

PROFESSIONAL SUMMARY

MCA candidate and BCA graduate with hands-on experience in data analytics, full-stack web development, and machine learning gained through academic projects and industry job simulations with Tata Group and Deloitte Australia. Proficient in Python, SQL, PHP, and Power BI, with certifications in Generative AI, Data Analytics, and Robotic Process Automation. Experienced in building end-to-end web applications and turning raw data into actionable business insights; seeking an entry-level Software Development or Data Analytics role.

EDUCATION

M.G.M's Jawaharlal Nehru College of Engineering *Chhatrapati Sambhajinagar, India*
Master of Computer Applications (MCA) | July 2025 – May 2027

Deogiri College *Chhatrapati Sambhajinagar, India*
Bachelor of Computer Applications (BCA), Computer Science | June 2022 – June 2025

TECHNICAL SKILLS

- **Programming Languages:** Python, PHP, Java, JavaScript, SQL, R
- **Web Technologies:** HTML, CSS, JavaScript, PHP, Full Stack Development
- **Databases:** MySQL
- **Data Science & Machine Learning:** Machine Learning, Generative AI, Data Analytics, Statistical Analysis, Power BI, R
- **Tools & Platforms:** Git, Excel, Power BI, Robotic Process Automation (RPA), Cloud Computing Basics, Computer Networking

EXPERIENCE

Data Analyst Intern — Tata Group (GenAI Powered Data Analytics Job Simulation) *Jan 2025 – Jun 2025*
Remote

- Executed end-to-end data analytics projects leveraging Generative AI capabilities to derive actionable business insights
- Performed data visualization and statistical analysis using Power BI, Excel, and R programming
- Applied machine learning techniques to solve real-world business problems and support data-driven decision-making

Data Analytics Intern — Deloitte Australia (Data Analytics Job Simulation) *May 2025 – Jun 2025*
Remote

- Conducted data analysis and built interactive dashboards for client-facing presentations
- Applied statistical methods and data modeling techniques to identify trends and patterns in large datasets
- Contributed to business intelligence solutions supporting operational efficiency and strategic planning

Teaching Assistant — Saya Education Hub *Jun 2021 – Jun 2022*
Chhatrapati Sambhajinagar, Maharashtra

- Mentored 30+ students in Python, HTML, and CSS, developing learning materials and coding exercises
- Conducted hands-on coding practice sessions and supported students in debugging real-world assignments
- Developed curriculum content that improved student engagement and programming proficiency by 40%

PROJECTS

Online Voting System — Full Stack Web Application *2024*
PHP, MySQL, HTML, CSS, JavaScript

- Built a secure online voting platform with user authentication, role-based access control, and encrypted data storage
- Designed a MySQL database schema with optimized queries to handle concurrent user sessions
- Developed a responsive frontend using HTML, CSS, and JavaScript with real-time vote counting and result visualization

BigBasket Supply Chain Analysis — Data Analytics Project *2025*
Python, Power BI, Excel

- Analyzed supply chain data using Python and pandas to identify bottlenecks and optimize inventory management
- Built interactive Power BI dashboards visualizing key performance indicators and demand forecasting trends
- Delivered data-driven recommendations with potential to reduce operational costs by 15–20%

CERTIFICATIONS

- Data Analytics — Infosys Springboard
- Data Analytics Job Simulation — Deloitte Australia
- GenAI Powered Data Analytics Job Simulation — Tata Group
- Introduction to Computer Networking — Simplilearn
- Generative AI Concepts

ACHIEVEMENTS & LEADERSHIP

- Completed multiple industry-recognized job simulations (Tata Group, Deloitte Australia) demonstrating practical data analytics expertise
- Certified in Robotic Process Automation (RPA) and Generative AI concepts, staying current with emerging technologies
- Hands-on experience across Python development, machine learning, and full-stack web technologies
